You want to get SEWP V Training? There’s a variety of options available to you:

In-agency trainings can be booked by reaching out to SEWP via our helpline, email, or the training request form <http://216.34.99.34/votingmodule/s180/survey/644729/196c/?logo=1>. SEWP will come to your office and provide training to your group. Training is FREE to attend and provides 2 CLPs. Scheduling will be based on our event and travel calendar. SEWP is happy to shape our content delivery to accommodate the needs of the attendees; acquisition users vs. technical users, for example. Sessions are approximately 2 hours and typically include the following topics:

- General overview of the SEWP contracts
- Review of products and services in scope for the SEWP contracts
- Customer service and the order process
- Contract groups & fair opportunity
- Using SEWP online tools
- Best practices

WebEx Overview sessions are offered monthly. Sessions are FREE and provide 1 CLP. These 1 hour sessions give a general overview of how to best use the SEWP tools. A list of available dates and registration links are located on the SEWP Events page. <http://www.sewp.nasa.gov/events.shtml>

City-wide and Regional Trainings are conducted across the country as stand-alone events or as part of larger events SEWP is participating in. These training events are typically 1.5 - 2 hours and provide 2 CLPs. Links to these events, dates and registration information are also located on the SEWP Events page. <http://www.sewp.nasa.gov/events.shtml>

The **SEWP Training Video** has been updated to reflect changes made to the program and tools! To find the video, visit the SEWP website www.sewp.nasa.gov:

SEWP
Mission
Statement

As an established and agile leader in the Federal Acquisition Community, the SEWP Program Office manages a suite of government-wide IT product solution contracts that provide NASA and all Federal Agencies with timely access to mission critical technologies.

The Program provides best value and cost savings for the Federal Government and American taxpayer through innovative procurement tools and processes; premier customer service and outreach; and advocacy of competition and cooperation with industry.

Vision
Statement

SEWP will solidify its reputation as an innovative, customer-focused program as it seamlessly transitions to SEWP V and will be a visible, leading contributor to NASA and the Federal IT Acquisition Community.

SEWP V Transition

The effective ordering period for the SEWP V contracts begins on May 1, 2015. The SEWP website now points to SEWP V information, including the Quote Request Tool and Provider Lookup Tool. Here are some frequently asked Questions about the contract transition:

• Can quotes acquired during SEWP IV be used after SEWP V launches, since the same Contract Holder is available on SEWP V?

No...any quotes received from SEWP IV Contract Holders are valid only through the end of SEWP IV (April 30, 2015). For an order to be valid after April 30, a new quote will need to be solicited from SEWP V Contract Holders and the order then issued under the selected company’s SEWP V contract.

• How does the contract launch affect my submission of mods from a base order started in SEWP IV?

Modifications of orders submitted during SEWP IV may extend up to five years beyond the end of the SEWP IV contract. Additional guidance can be found in our FAQ “Can my Delivery Order / Lease / Purchase Agreement extend beyond the Contract End date of Spring 2015?”

Options and mods related to SEWP IV orders should continue to be sent to sewporders@sewp.nasa.gov. All options and mods must be related to a valid SEWP IV order and the original order should have indicated the length of time such mods would be allowed. The SEWP Program

SEWP V Groups

The SEWP V Contract Holders are divided into 5 groups based primarily on business size and business model.

- All business sizes are represented on SEWP.
- Set-asides, such as woman-owned small businesses, can be issued at the RFQ level.
- Group A has a manufacturer NAICS code of 334111.
- The other groups have a Value-Added Reseller (VAR) NAICS code of 541519.
- Solicitations to Contract Holders in Group A, which has a different NAICS Code, cannot be made in combination with Contract Holders in other Groups.

The method of determining which group or groups to use is dependent upon your market research and agency requirements. The only recommended method is the SEWP Quote Request Tools. Scope is the same for all SEWP Groups.

See the full list of SEWP V Contract Holders inside this Newsletter!

Office will continue to accept such mods for up to 5 years after the end of the contracts; i.e. April 30, 2020.

• Will I have access to RFQs and quotes placed prior to May 1, 2015?

A version of the SEWP IV Quote Request Tool (QRT) will provide ‘read only’ access to the RFQs you’ve created. This will be separate from the SEWP V version of the QRT which will be accessible at the start of the contract (May 1, 2015)

• Can I still find SEWP IV info on your website, if I have questions related to that contract?

Yes, once SEWP V begins, the SEWP website will be updated and will contain a link to access SEWP IV content.

• Will there be any changes that affect the way I use the SEWP tools when SEWP V launches?

While minor changes that coincide with details of the new contract (such as the new groups and set-aside options) may be immersed within the tools, there are no foreseeable changes that will have an adverse effect on customer usage. So, your usage should remain essentially the same.

• When can I submit SEWP V RFQs?

The SEWP V Quote Request Tool is available as of May 1, 2015.

If you have additional questions or concerns, please contact the SEWP Customer Care staff at help@sewp.nasa.gov / 301-286-1478.
